

## Science Night

**When:** Thursday, January 24  
6:30PM to 7:30PM

**Where:** Riverbank Charter School of Excellence

**Cost:** **FREE** (This is a PTO sponsored family event)

A special event to experience science. Sparking the imagination and curiosity of our children by providing them with a fun way of learning to instill a clearer understanding of what science is and how it effects the world around us.

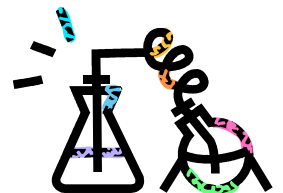

This event features Mrs. Stobie, our own local science teacher from Florence High School, and some of her students to assist with learning different aspects of science.

Some past experiments included: Dry ice and making slime. We can't wait to see what Mrs. Stobie has in store for us this year!!!

**The RSVP deadline is Friday, January 18th to allow time for materials to be acquired. Your prompt response is appreciated.**
